District 45 Candidates Debate Candidates for the District 45 State Senate Seat Debated Wed Oct 20 at Bellevue University

Thursday, October 21, 2004 – Candidates for the District 45 State Senate Seat Debated Wed Oct 20 at Bellevue University. The only real surprise, there is no Republican in the race. As a matter of fact with Senator Ray Mossey dropping from the District 3 race. The Democrats will control all three Sarpy County Senate seats.

Voters were shocked to learn that Jerry Ryan wants to raise the minimum wage, take away our cars and make us use public transportation, that he over spent this years Bellevue City budget by almost \$3 million dollars and voters are getting a 13.5% tax increase this April to pay for that. Ryan does not think the city needs to consult the school district about annexations even if it would cost the district our \$10 million dollars per year in Federal Impact Aid because he feels the city is more important than schools and we can raise taxes to make up for lost impact aid. Ryan, an abrasive mayor who has bitterly divided the city council, has not in his tenure as mayor learned to control his temper long enough to build coalitions of support. Were contrasted with Abbie Cornett whose experience as a police officer and mother, make her a natural at settling issues and finding the common ground. When the smoke had cleared Democrat Abbie Cornett was so far right of Jerry Ryan you would have thought her a Republican candidate. She was against the minimum wage being raised, for market driven wages, for responsible budgets, for cautious expansion of Bellevue, but not at the expense of impact aid, Pro-schools and careful expansions of the Bellevue School District, she even had a plan to expand the Kennedy Freeway reducing traffic congestion. Jerry Ryan who ended the debate looking dazed and confused, asked people to vote for him for District 46. Not sure where that is exactly, but if they want a tax-n-spend radical liberal fool, I think we should send him to that town. As for Bellevue, Abbie Cornett is our best bet by a country mile. Please vote on Election Day.

The Omaha World Herald has Endorsed

★ Abbie Cornett
for LEGISLATURE

From the Omaha World Herald, Editorial Page, 10-28-04

"Abbie Cornett (District 45, Bellevue). A retired police officer, Cornett has the personal and political gifts to be another in a series of influential senators from a district that has produced Frank Lewis and Paul Hartnett. She speaks with authority of her goals for holding down spending while making sure the mental-health reorganization and child-welfare system perform efficiently. A proponent of tax reform as ar

personal and political goals to be met that has produced Frank Lewis and Paul Hartnett. She speaks with authority of her goals for holding down spending while making sure the mental-health reorganization and the child-welfare system perform efficiently. A proponent of tax reform as an economic development tool, she would address Medicaid spending in part by advocating tax incentives for the purchase of long-term care insurance."
